Vos Logistics

The company

Vos Logistics, founded in 1944, is an independent European logistics service provider, delivering a wide range of transport and customer specific logistics services. With 24 locations, Vos Logistics is active throughout Europe and ranks among the largest road haulers in the region. With just under 1,900 employees, the company operates a modern fleet of 1,200 vehicles, 3,000 loading units and 170,000 m² of storage space.

The need

In order to deliver on the core company values, Vos Logistics decided to upgrade their video surveillance solution at their warehouses to protect the millions of dollars of assets it stores every day. Vos Logistics faced more strict security requirements and therefore wanted an IP video surveillance solution to leverage the latest innovations in security systems.

The solution

Vos Logistics placed a premium on deploying a solution that streamlines configuration and management, is easy to use, and delivers consistent throughput and reliable data protection. PROMISE Vess NVR storage servers, Milestone XProtect® Video Management Software (VMS) and cameras from Axis Communications proved to be the answer.

Vos Logistics deployed Vess A series NVR storage servers with the video recorded from all of the Axis cameras at the warehouses to a large-scale centralized storage infrastructure. Vess A Series NVR storage appliances can cover from tower-base to 4U/24 form factor with Intel x86 platform and PROMISE enterprise-grade RAID engine inside. Vess A series deliver low latency performance with bandwidth optimized for capturing and storing live feeds of high resolution video from the HD cameras Axis deployed throughout Vos Logistics.

Solution partners

The result

Vess NVRs are certified by Milestone for interoperability with XProtect VMS

Close integration between PROMISE and Milestone - XProtect plug-in enables Vos Logistics to manage the NVR via the user interface of XProtect

Optimized for surveillance environments and can scale to meet long-term data retention requirements

“The solution we deployed from PROMISE, Milestone and Axis has been exactly what we needed and has performed beyond our expectations.”

Toine van Gils, Director Contract Logistics, Vos Logistics
